

Let Loose Game

1. Choose a big loose part from the kit.
2. Find a small loose part (like a pebble or a paperclip).
3. Drop the small loose part on this game board, see where it lands, and do what it says with the big loose part.
4. Let loose!

If the small loose part overlaps two prompts, do both! Repeat these steps until you feel comfortable creating your own way to play.
